Listening test script

It seems that everywhere around the world, people are spending more time at work and less time with their families and friends. People are busier than ever before!

In the past in many countries, the father worked and the mother stayed home, took care of the children, and did the food shopping, cooking, and cleaning. Nowadays in many families, both parents work, so they both have to do the shopping, cooking, and cleaning in their free time. Parents, therefore, don't have as much time with their children as they used to have in the past.

These days, many children come home from school to an empty house. A lot of children spend many hours each day in front of the television. Even when families are together, it is common for family members to do things by themselves. For example, they watch programs on separate TVs in different rooms, they use the Internet, they talk with friends on the telephone.

Isn't it strange? Thanks to technology, people are able to communicate so easily with people far away, but sometimes they don't communicate as well as before with people in their own homes.

(1) People in the world work longer and make more friends every day.

(2) In the old times the father had a job and the mother did the housework, for example, childcare, cleaning, and cooking.

(3) Today, more fathers and mothers do housework together.

(4) These days many children spend their time watching TV, talking to other family members in the living room.

(5) The Internet has made it possible for people to communicate so easily with people in their family.
